STRAIGHTEDGE DISPLAY

It helps **your** sales! Rack to hold dozen or more straightedges free with order of straightedges. Write or consult our representatives. Shipping weight: 5 pounds.

Wallpaper Trimmers

ADVANCE SENIOR TRIMMER

No. 27

No. 27 — In the Senior Trimmer we offer a tool most modern and perfect in design and construction. Although larger than the average trimmer, it is comparably lighter and easier to operate. The special alloy castings are designed for lightness, strength and durability.

Other special features:

Entirely new easy level action due to entirely new spring design. The Trimmer can be operated with a minimum of pressure, still lift instantly when pressure is released.

The box type track guide insures steadiness; blade arbor rides in bronze bushing insuring longer wear.

Side adjustment of blade is positive and simple — it cannot get out of order. The blade can be removed without taking Trimmer apart.

This tool is carefully made and guaranteed to give satisfaction.

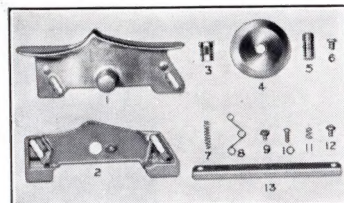

Case is nickel chrome plated.

Packed one in a box with instructions and parts list.

Weight: 9 ounces.

SPATULAS

No. 155 — Spatulas. Flexible blades tempered and polished. Polished Cocobola handles secured with tubular brass rivets. Packed ½ dozen in a box. Sizes: 3", 4", 5", 6", 8", 10" and 12".

ARTISTS' PALETTE KNIVES

No. 156 — Available in blade lengths 2 3/8", 3 1/2" and 5 1/4".

Full forged blade and bolster, solid Cocobola handle, elastic blade.

Packed one dozen in box.

Painters' Scrapers

The blades of these Scrapers are full hammer forged, a manufacturing process used only on the very highest quality of Painters' Cutlery. The forging process produces more density of the steel thereby adding additional toughness to the blade. It will give longer wear under continuous hard service. Blades have standard Satin Glaze Finish with cross polish. Handles are of genuine Cocobola wood, finely polished, secured with steel pin rivets and heavy white metal bolster. These scrapers are fully guaranteed. We recommend them to the professional trade that wants the best.

Decorators' Tools

ADVANCE E. Z. SANDER

(Patent Applied For)

The E. Z. Sander is a most practical tool for holding sandpaper when preparing a surface for painting or finishing. At the low retail price, it is a good item for both the professional Decorator and household trade. It is made of wood in two sections. The hand hold block clamps on to the sanding block with a friction catch, firmly holding the sand paper. Sand paper can be quickly and easily changed. The tool is finished attractively in two colors.

No. 0 Sander — Has wood bottom; no felt.

No. 00 Sander — Has felt pad — more adapted for professional use.

Packed twelve in attractive counter display box.

Weight per box: 3 pounds.

SANDPAPER REFILLS

No. 010 Sandpaper — Cut to required size. Put up in packages of eight pieces assorted. Packed 50 packages in box.

Weight per box: 8 ounces.

PAINT AND CALCIMINE STRAINERS

No. 174 — Made of prime coke tin. Made in 6" and 8" at bottom with fine mesh brass wire bottom.

No. 274 — Same style as No. 174, made in 6" and 8" with perforated tin bottom.

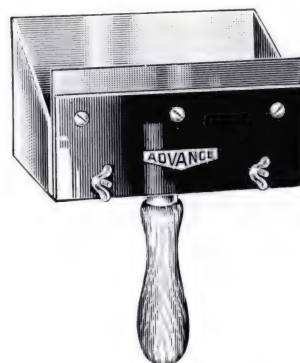

Weight: 1 pound each.

CALCIMINE SCRAPER

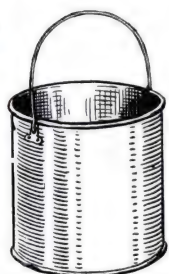

No. 800 — Will pay for itself many times on one job. Simply wet the calcimined wall or ceiling with brush, then scrape it off instead of wearing out expensive sponges by washing. Tool is so constructed that when scraping, the dirt falls into receptacle, thereby keeping floors or drop cloths more clean. When the blade is worn down, it can be replaced by a new one at a small cost. Packed six in a box.

Weight per box: 6 pounds.

No. 800

PAINT BUCKETS

No. 404 — 4 Quart Tin.

No. 403 — 6 Quart Tin.

No. 406 — 4 Quart
Galvanized Iron.

No. 402 — 6 Quart
Galvanized Iron.

Weight: 1 pound each.

SHELLAC POTS

No. 407 — Shellac Pots.

Made of Prime Tin with tight fitting steeple top. Sizes 1 quart and 2 quart.

Weight: 1 quart, 12 ounces.

Weight: 2 quart, 18 ounces.

VARNISH CUPS

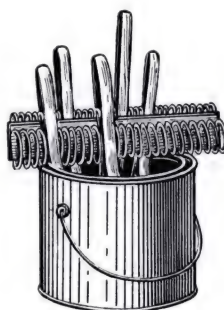

No. 408 — Varnish Cups.

Made same as shellac pots, but have no steeple top. Sizes 1 quart and 2 quart.

Weight: 1 quart, 6 ounces.

Weight: 2 quart, 8 ounces.

SPRING BRUSH SUSPENDERS

Available in two sizes.

No. 1000 — 9" long.

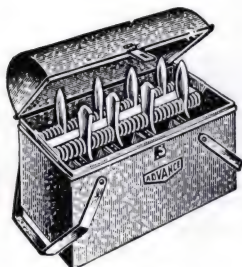

No. 1001 — 18" long.

Packed ½ dozen in carton.

No. 1003

BRUSH KEEPERS

No. 1002

No. 1003 — Size 8½" x 10½" x 14". Steel welded construction. Piano hinged cover with hasp. Brush suspenders on removable brackets made to accommodate 8 brushes. Cabinets are finished in attractive aluminum.

No. 1002 — Size 8" x 17" x 14"; 3 compartments; steel welded construction. Coil spring brush suspender on removable brackets made to accommodate 18 or more brushes. Piano hinged cover with hasp. Aluminum finish.

No. 1002 — Weight: 12 pounds.

No. 1003 — Weight: 9 pounds.

Glaziers' Tools

TROJAN SELF-OILER GLASS CUTTER

A high quality cutter. A favorite with the professional glazier.

Shipping weight: 10½ pounds.

MONARCH

Steam Wallpaper Remover

The "Monarch" has a special fast steaming, large 6 gallon flue type boiler, powerful enough for the toughest jobs; easy to operate, will carry two lines of hose if desired.

Improved gasoline coil type burner. 2 gallon fuel tank.

Equipment includes 1 large, 1 small concentrator and 20 feet of steam hose. Machine is mounted on ball bearing castors.

For those who prefer to use kerosene for fuel, we can equip the machine with our new kerosene burner at extra cost. It is not a coil burner, but so constructed that it can be cleaned when necessary.

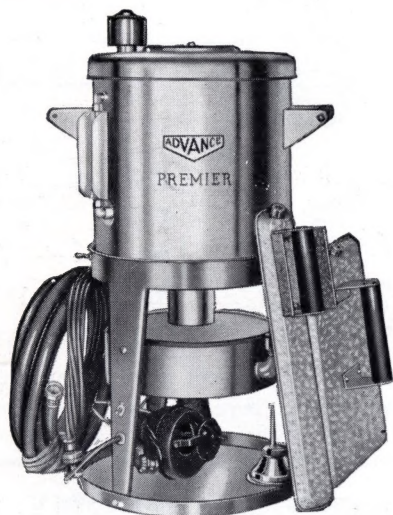

When ordering state whether kerosene or gasoline burner is desired.

Full operating instructions with each machine.

Shipping weight: 90 pounds.

PREMIER

Kerosene-Electric Remover

This machine uses kerosene for fuel which is vaporized by an electrically operated vaporizing system. It is instant lighting without generating. No pressure required; no generating tube or coil to clog and give trouble.

"PREMIER" has ample efficiency for the toughest and most difficult jobs. It is equipped with two concentrators, steam hose, twenty-five feet of cord for connecting the electric generating system.

ADVANTAGES. No pumping; no waiting for burner to generate. It gives a hot blue flame as the burner is lighted. There is no pressure on the fuel tank; it cannot overflow. Surplus fuel drains back into the tank.

Steam for operating can be raised in fifteen minutes. By removing the boiler, the burner unit can be used separately as a heater. A special grate is supplied for this purpose.

Full operating instructions with each machine.

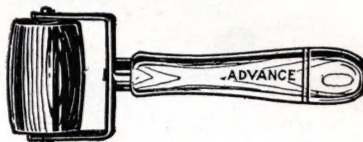

Shipping weight: 75 pounds.

For The Household Trade

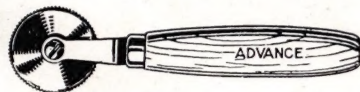

Made for the demand for lower priced casing wheels. Serviceable tools but not comparable to our regular line.
